CIRM Bridges 3.0 Connect

Cal Poly Humboldt CIRM Bridges scholars are pleased to present their research in regenerative medicine to our campus and community.

This year's Student interns are approaching the end of their 12-month internship in stem cell biology and regenerative medicine at one of our outstanding collaborating host institutions: [The Stanford University Institute for Stem Cell Biology and Regenerative Medicine](#) and [The University of California Davis Stem Cell Program](#). They have received advanced training in the research methods and good manufacturing practices required to develop cellular-based therapies for emerging and unmet medical needs.

Student-Centered Panel Discussion

STUDENTS! Find out more about this program from the participants (drop in)

Friday, May 7th 10 AM - 12 PM, Sci B 122

2023 Cal Poly Humboldt Ideafest
