

# Biology Seminar Series

Biology Graduate Student Association  
Department of Biological Sciences  
Humboldt State University

## Capturing the diversity of complex motions during fish feeding

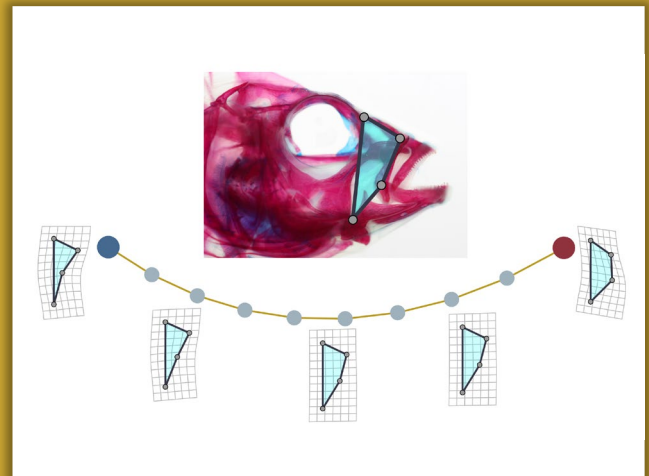

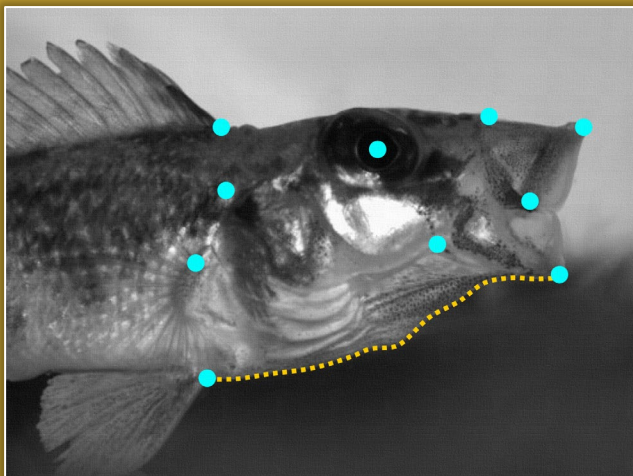

March 19<sup>th</sup>, 2021  
12:00 p.m. (PST)  
Via zoom

Please email the B.G.S.A.

**Christopher Martinez**  
University of California – Davis

Chris is a postdoc at UC Davis, currently studying the evolution of feeding motions in fishes. His research combines natural history, morphometrics, and biomechanics to broadly focus on the processes and mechanisms underlying the diversity of form and function.
