

BIOLOGY SEMINAR SERIES

Biology Graduate Student Association | Department of Biological Sciences | Humboldt State University

Conservation physiology of northern elephant seals

Dr. Daniel Crocker Sonoma State University

Dr. Daniel Crocker's current research is focused on the endocrinology, immune function, and stress physiology of marine mammals. Current funding examines the cumulative impacts of anthropogenic stressors and ocean climate on health and reproduction in elephant seals.

FRIDAY, OCTOBER 8TH, 2021

12:00 p.m. (PST)
