ZOOL312 Human Physiology

Essay Section

Please answer each question in 300 words or less:

1. How have the experiences in your life motivated you to pursue a career in stem cell related cancer research? If you have overcome any specific challenges or obstacles to be in college, please highlight them here.

2. Why is doing stem cell related cancer research important to you and how do you see yourself in that role?

A large, empty rectangular box with a thin black border, intended for the applicant to write their response to the question. The box occupies most of the page below the question.

3. How will this research position better prepare you for your future career and what do you hope to learn/achieve with this assistance?
