

Emerging Scientist Imaging Workshop @ UC Davis

July 30th to
August 3rd, 2023

Participants of the workshop will:

- Gain knowledge of microscopy, image analysis, and imaging resources at UC Davis and beyond.
- Build skills and learn of tools needed to use microscopy within your own research.
- Develop connections with other trainees and scientists from across California to aid research and career success.

***Housing, Travel and Meals will
be provided for all participants!***

If interested, please apply [here](#).

Questions? Please contact Jessica Bolivar (jbolivarmcpeek@ucdavis.edu).
